

Product Development Brief — Permanent Hair Color Cream

Regulatory review markets: KR · EU · CN · ASEAN | Fictional demo document · Key ingredients for review · Not a manufacturing formula

01 Request Information

Document No.	HC-DEMO-2026-001
Date	2026-09-25
Requesting Dept.	Hair Care Development Team
Target Markets	KR, EU, CN, ASEAN (regulatory review markets — not an export approval)
Product Name	Permanent Hair Color Cream (PPD-free, ammonia-free) — colorant component
Product Concept	Oxidative permanent hair color cream for home use. PPD-free and ammonia-free positioning; the developer (oxidizing lotion) is a separate component and is not covered by this brief.
Development Objective	Confirm the regulatory status (prohibited / restricted, limit conditions and labeling requirements) of the key oxidative dye precursors, couplers and alkalizing agents in each target market before formulation work starts.
Requests	1. Look up each key ingredient in the regulatory sources for KR, EU, CN and ASEAN and report the regulation type, limit conditions and required label warnings. 2. Flag any ingredient that is prohibited or has an on-head concentration cap in any target market. 3. Concentrations are not fixed (TBD). Do not derive a formula from this brief.

02 Key Ingredients for Review

This is a key-ingredient review list, not a full formula. Water, surfactants, fatty alcohols, fragrance and other base materials are omitted. Concentrations are TBD.

No.	INCI Name	Concentration (%)	Function
1	p-Aminophenol	TBD	Primary intermediate
2	N,N-Bis(2-Hydroxyethyl)-p-Phenylenediamine Sulfate	TBD	Primary intermediate
3	1-Hydroxyethyl 4,5-Diamino Pyrazole Sulfate	TBD	Primary intermediate (red)
4	Resorcinol	TBD	Coupler
5	4-Amino-2-Hydroxytoluene	TBD	Coupler
6	6-Hydroxyindole	TBD	Coupler
7	2-Amino-3-Hydroxypyridine	TBD	Coupler
8	5-Amino-6-Chloro-o-Cresol	TBD	Coupler
9	Ethanolamine	TBD	Alkalizing agent
10	Aminomethyl Propanol	TBD	Alkalizing agent

Listing an ingredient here means it is submitted for regulatory review only. It does not indicate that the ingredient or the product is permitted, safe or compliant in any market.
